

UMER SHAIKH

WEB DEVELOPER

ABOUT ME

A highly motivated and results-driven computer systems engineering student at Mehran University of Engineering and Technology with a fervent passion for web development. Possessing a blend of technical expertise, creative flair, and user-centric thinking, I am eager to leverage my skills to craft innovative and engaging web applications that transform user experiences.

EXPERIENCE

Intern

IIUI Schools

Versatile contributions in:

Web Development: Maintained responsive websites, implemented front-end designs.

Graphic Designing: Created visuals for marketing collaterals.

Project Management: Planned, executed, and monitored projects.

Event Management: Coordinated logistics for company events.

2018 - PRESENT

Intern

LUMHS

During my internship, I excelled in maintaining regularity, punctuality, and responsibility. Known for rapid learning, I contributed to mobile app development, troubleshooted technical issues in website design, and collaborated to enhance project efficiency. My dedication was evident in extensive data collection, analysis, and deriving meaningful insights using statistical tools.
